WORK EXPERIENCE

Core Team Member

SPIH

03/2018 – 06/2018

SaaS Solutions

Achievements

- Managing and helping a team of 6 web developers in building front end applications for a production level CMS project.

Web Developing Team

SRM DSA

09/2017 – 12/2017

SRM

Achievements

- Developed backend, admin panel and a calendar app which would show events happening in the campus.

PROJECTS

Morning Essentials [🔗](#)

- A all-in-one application required for your daily news, updates, weather, some good quotes and many more features.

Sentiment Analysis on Yelp Reviews (05/2018 – 06/2018)

- This was a project task given to my team (6 individuals) during my internship at NUS. We tested multiple models and ended up ensembling all the models to get best results.

Chat Room (04/2017 – 06/2017)

- The Chat Room is a public chat box, where people could come and text, play music synchronously, poke each other etc. It was built using Vuejs with Nodejs backend and was using sockets.

Hybrid App

- Using Cordova, built an app which was required by one of my friend's father to build customer relationship by sending the customers Birthday messages on their birthdays.

EDUCATION
